Overview

Airtraq LLC is seeking an original approval of their models A-305/ATQ-305 camera with a 5.8 GHz transceiver. The transceiver module is Airwave's model AWM661TX. The camera is used to capture and transmit images from an optical laryngoscope to a wireless receiver and recorder models A-335/ATQ-335.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
